PROFESSIONAL SUMMARY

Dynamic medical student and experienced software developer with a strong background in microbiology, healthcare advocacy, and full-stack development. Proven track record in translational research, community health outreach, and digital health solutions. Committed to bridging technology and healthcare to improve patient outcomes and community health access.

EDUCATION

College of Medicine, University of Ibadan, Ibadan, Oyo State, Nigeria

Bachelor of Medicine, Bachelor of Surgery (MBBS) | 2023 - 2029 (Current)

- **Recent Academic Work:** "The Role of Bioengineering in Cardiovascular Diseases" (Review Article Contributor)
- Active member of University of Ibadan Medical Students' Association (UIMSA)
- Focus on translational medicine and clinical research applications

Obafemi Awolowo University, Ile-Ife, Osun State, Nigeria

Bachelor of Science in Microbiology | 2017 - 2021 | 4.4/5.0

- **Undergraduate Thesis:** Phytochemical Screening and Antibacterial Activity of the Methanolic Extracts of *Artocarpus heterophyllus* Stem Bark
- **Seminar:** Antimicrobial Factors Produced by Lactic Acid Bacteria
- **Academic Recognition:** Graduated with Second Class Upper Division

Aquinas College Akure, Akure, Ondo State, Nigeria

Senior School Leaving Certificate | West African Examination Council

PROFESSIONAL EXPERIENCE

Software Developer | Monimoore, UK (Remote)

June 2024 - September 2024

- Developed scalable financial web applications using modern JavaScript frameworks and backend technologies
- Participated in code reviews, maintaining coding standards and best practices
- Contributed to API development and database optimization projects

Front End Developer | URecoverApp (Freelancer)

2024

- Architected and developed a comprehensive recovery management application from concept to deployment
- Built responsive frontend interfaces using React.js with modern UI/UX design principles
- Delivered project within timeline while maintaining high code quality and documentation standards

National Youth Service Corps (NYSC) Member | Verity International Foundation, Mokola, Ibadan

2022 - 2023

- **Place of Primary Assignment:** Youth empowerment-focused international foundation (Full-time service)
- Supported community health initiatives and coordinated patient advocacy programs
- Developed digital record management systems to improve foundation's operational efficiency
- Assisted in medical outreach programs to underserved communities within Oyo State

RESEARCH & ACADEMIC EXPERIENCE

Research Contributor | Medical Academic Writing

2025 - Present

- **Recent Publication Contribution:** "The Role of Bioengineering in Cardiovascular Diseases" (Review Article)
- Conducted literature reviews on demerits and challenges of bioengineered cardiovascular solutions

Voluntary Research Work | Department of Microbiology, Obafemi Awolowo University

March - December 2021

- Participated in antimicrobial research involving environmental sample collection and analysis
- Conducted phytochemical screening of *Ficus exasperata* for antibacterial activity assessment
- Contributed to data analysis, laboratory protocols, and research documentation
- Presented findings at departmental seminars and contributed to research publications

Industrial Training | Department of Microbiology and Parasitology, OAU Teaching Hospital Complex

January - March 2020

- Completed intensive clinical microbiology laboratory training program
- Assisted Clinical Microbiologists in diagnostic testing procedures and quality control
- Gained expertise in clinical specimen processing, culture techniques, and antimicrobial sensitivity testing
- Developed proficiency in laboratory safety protocols and equipment maintenance

Academic Tutor | Obafemi Awolowo University

2017 - 2021

- Tutored undergraduate students in advanced microbiology, organic chemistry, and biostatistics
- Designed and facilitated group study sessions and structured tutorial programs
- Developed comprehensive examination materials and practice questions for multiple science disciplines
- Achieved 95% student satisfaction rate in tutorial feedback evaluations

HEALTHCARE ADVOCACY & COMMUNITY SERVICE

Student Ambassador | Gynix Africa

2024 - Present

- Champion women's health awareness and reproductive health education initiatives
- Develop educational content on maternal health, family planning, and women's wellness

- Coordinate community workshops and health screening programs for underserved populations
- Collaborate with healthcare professionals to improve women's healthcare access and quality

Team Member | FirstAidHub

2025 - Present

- Promote first aid awareness and emergency response training in communities
- Develop and deliver educational content on basic life support and emergency care procedures
- Organize community workshops on CPR, wound care, and emergency response techniques
- Train community health volunteers in first aid and emergency preparedness

Medical Outreach Volunteer | Christian Medical and Dental Association of Nigeria (CMDA) & Community Partners

2022 - Present

- Participated in multiple medical outreach programs serving underserved and deserving communities
- Provided basic health screenings, health education, and referral services to rural populations
- Collaborated with healthcare professionals to deliver comprehensive primary healthcare services
- Contributed to health data collection and community health needs assessments

LEADERSHIP & ORGANIZATIONAL ROLES

Active Member & Software Development Contributor | University of Ibadan Medical Students' Association (UIMSA)

2023 - Present

- Actively participate in student academic and policy discussions within the association
- **Software Development Contributions:** Designed and developed digital solutions to streamline class management and association operations

- Collaborate with association leadership to integrate technology solutions for enhanced student services

Academic & Leadership Positions | Obafemi Awolowo University

2017 - 2021

- **Academic Officer:** Microbiology Department student representative
 - **Faculty Representative:** Biological Sciences faculty academic liaison
 - **Fellowship Pastor:** Led Christian student fellowship with 60+ active members
 - **Peer Mentor:** Guided junior students in academic and career development
-

CORE COMPETENCIES

Technical Expertise

- **Software Development:** Python, JavaScript, React.js, Vue.js, Node.js, Django, PHP
- **Web Technologies:** HTML5, CSS3, RESTful API Development, Database Management (SQL/NoSQL)
- **Data Science & Analytics:** R, Python, Tableau, Statistical Analysis, Machine Learning
- **Biostatistics:** Predictive Modeling, Data Visualization & Manipulation, Clinical Data Analysis
- **Laboratory Proficiency:** Autoclave, Micropipette, Light Microscopy, Rotary Evaporation, Incubation Systems
- **Operating Systems:** Linux, Windows, macOS

Healthcare & Research Skills

- **Patient Advocacy:** Community health promotion, healthcare access improvement
- **Clinical Research:** Translational medicine, biomedical research methodology
- **Public Health:** Health education, community outreach, epidemiological analysis
- **Medical Writing:** Research documentation, academic publication, grant writing

Professional Skills

- **Project Management:** Agile methodologies, team coordination, deadline management
- **Communication:** Technical writing, presentation skills, cross-cultural communication

- **Leadership:** Team building, mentorship, organizational development
- **Problem-Solving:** Critical thinking, analytical reasoning, innovative solution development

Languages

- **English:** Native proficiency
- **Yoruba:** Native proficiency
- **Arabic:** Basic proficiency
- **Hausa:** Basic proficiency

CONFERENCES & PROFESSIONAL DEVELOPMENT

Medical & Scientific Conferences (2024-2025)

- **Artificial Intelligence in Medicine Conference** | *UIMSA, June 2025*
 - Student representative for College of Medicine, University of Ibadan
 - Participated in AI healthcare applications and medical technology discussions
- **5th Anniversary Scientific Conference** | *College Research & Innovation Hub (CIRH), August 16-17, 2024*
 - **Theme:** "From Bench to Bedside: The Role of Undergraduates in Translational and Clinical Research"
- **Virtual Health Literacy Emergency Response Training** | *EOhealth Hub NIMSA, April-May 2025*
 - Completed comprehensive emergency healthcare response certification program

Academic & Professional Training

- **EDM-LISA OAU Statistics Laboratory** | *August 25-27, 2021*
 - Intensive 3-day biostatistical analysis and research methodology workshop
- **Leadership Summit** | *Nigerian Association of Microbiology Students, Southwest Region*
 - Advanced leadership development and professional networking program
- **ICT Training Program** | *Obafemi Awolowo University*
 - Information and communication technology skills development for university students

CERTIFICATIONS & PROFESSIONAL CREDENTIALS

Technology & Software Development

- **Software Development Fundamentals** | *Digital Skills Nigeria & Microsoft*
- **HTML5 Application Development** | *Digital Skills Nigeria & Microsoft*
- **Ethical Hacking Certification** | *Hacker-X*
- **Introduction to Jupyter Notebook** | *365 Data Science*

Data Science & Analytics

- **Introduction to Statistics** | *365 Data Science*
- **Mathematics for Data Science** | *365 Data Science*
- **Machine Learning in Python** | *365 Data Science*

Digital Marketing & Communication

- **Fundamentals of Digital Marketing** | *Google Digital Skills for Africa*
- **Facebook Advertisement Certification** | *Digitex*
- **Graphics Design Certificate** | *Digitex*
- **Text Animation and Video Ads** | *Digitex*

Academic & Professional Recognition

- **Certificate of Merit for Students** | *Nigerian Mathematics and Sciences Olympiads*
- **ICT Training Participation Certificate** | *OAU Centre for Excellence in Software Engineering*

RESEARCH INTERESTS & SPECIALIZATIONS

- **Digital Health Innovation:** Development of technology-driven healthcare solutions
- **Translational Medicine:** Bridging laboratory research and clinical applications
- **Bioengineering Applications:** Engineering solutions for cardiovascular and chronic diseases
- **Community Health Advocacy:** Improving healthcare access and health literacy in underserved populations

- **Antimicrobial Research:** Continued research in microbial therapeutics and antibiotic resistance
 - **Medical Data Analytics:** Application of data science in clinical decision-making and patient outcomes
-

PROFESSIONAL AFFILIATIONS

- **University of Ibadan Medical Students' Association (UIMSA)** - Active Member
 - **Christian Medical and Dental Association of Nigeria (CMDA)** - Volunteer Member
 - **Nigerian Association of Microbiology Students** - Alumni
 - **Gynix Africa** - Student Ambassador
 - **FirstAidHub** - Team Member
-

AWARDS & RECOGNITION

- **Academic Excellence Award** - Second Class Upper Division, B.Sc. Microbiology (4.4/5.0)
 - **Merit Certificate** - Nigerian Mathematics and Sciences Olympiads
 - **Outstanding Service Award** - NYSC Service Year Recognition
 - **Leadership Excellence** - Student Fellowship Pastor Recognition
